What's

Productivity

The China International Furniture Fair (CIFF) is a must-attend event for professionals in furniture machinery, hardware, and materials.

Held annually in March in Guangzhou, China, CIFF gathers top brands, industry leaders, technology innovators, and professional buyers, creating a platform for seamless collaboration and exchange across the furniture manufacturing supply chain.

With the theme "Design Trends, Global Trade, and Full Supply Chain," CIFF highlights cutting-edge manufacturing technologies, advanced equipment, smart solutions, and a diverse range of materials, with its year-round exhibitions driving ongoing innovation and industry growth.

Join the world's premier furniture manufacturing sourcing event for a dynamic, inspiring, and impactful experience.

Market Background

The global woodworking machinery market size was estimated at USD 47,226.0 million in 2024 and is projected to reach USD 66,341.2 million by 2033, growing at a CAGR of 3.9% from 2025 to 2033. The growing demand for high-quality wooden furniture and interior décor products is fueling the adoption of advanced woodworking machinery.

Market Size & Forecast

2024 Market Size: USD 47,226.0 Million

2033 Projected Market Size: USD 66,341.2 Million

CAGR (2025-2033): 3.9%

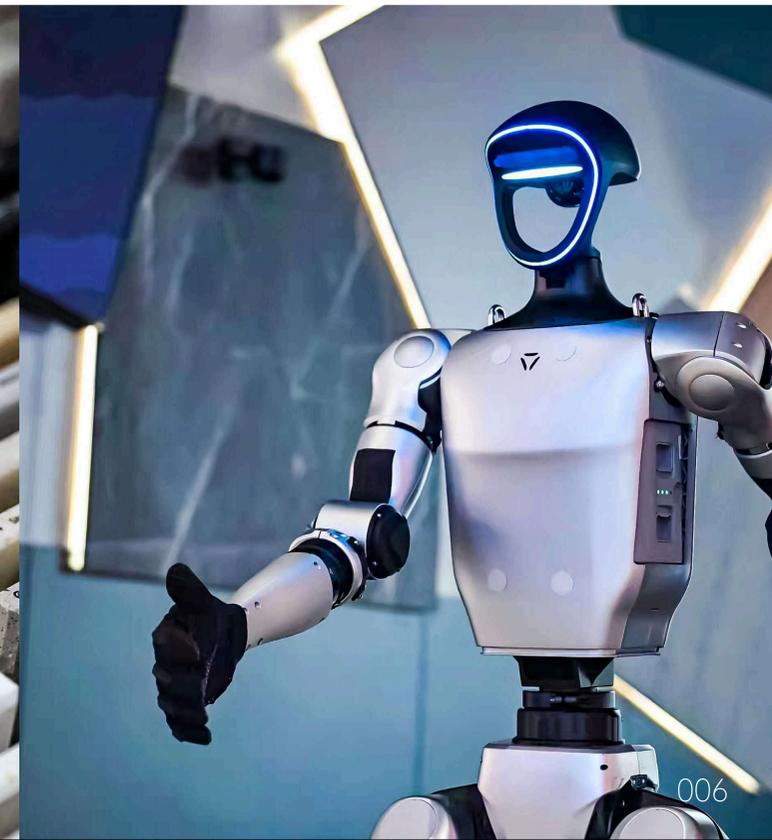

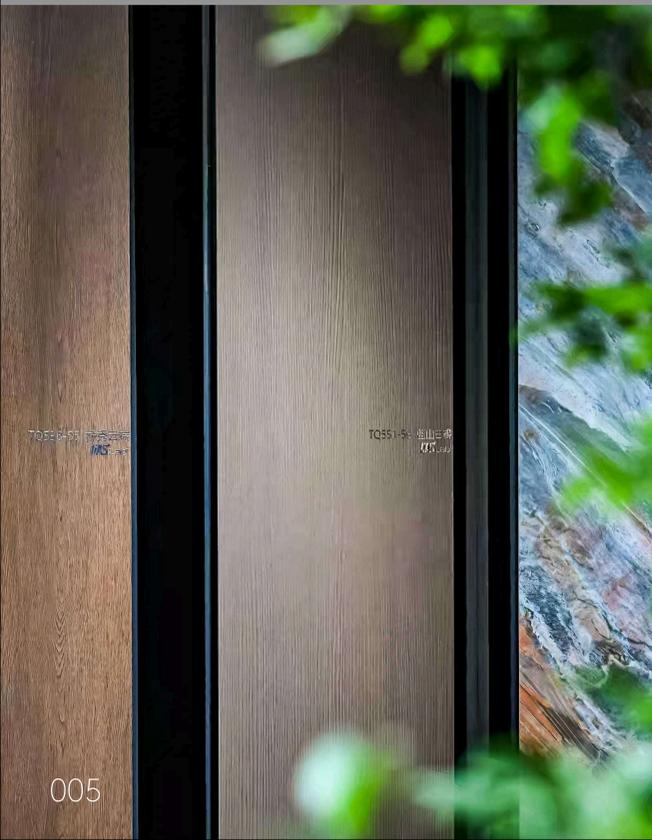

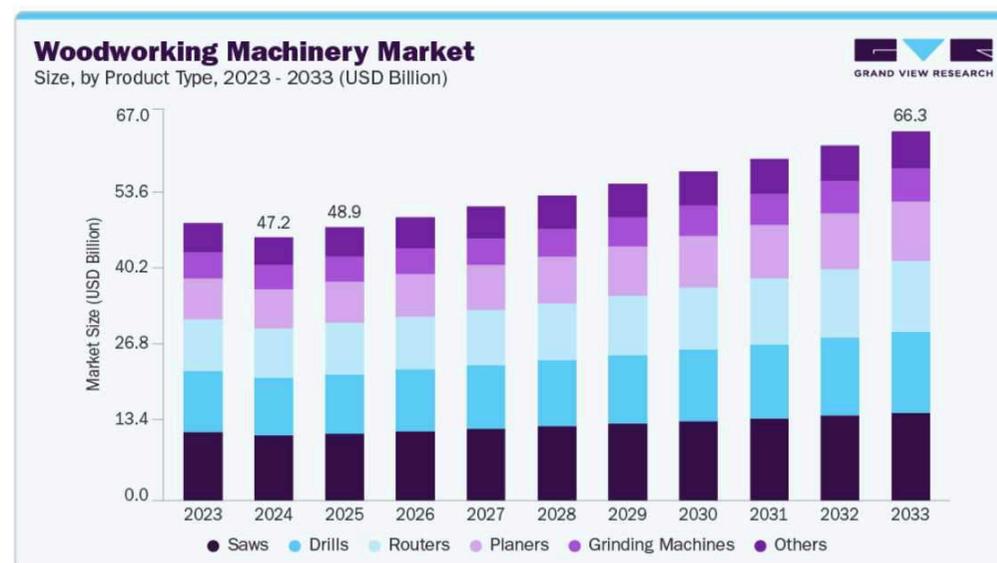

Europe: Largest market in 2024

Asia Pacific: Fastest growing region

*Source: GRAND VIEW RESEARCH

*Link: <https://www.grandviewresearch.com/industry-analysis/woodworking-machinery-market-report>

Rising urbanization and increasing disposable incomes are encouraging residential and commercial construction activities. Sustainability initiatives and the focus on eco-friendly production processes are driving the use of energy-efficient and low-emission woodworking equipment. The expansion of small and medium-sized woodworking enterprises in emerging economies is further boosting market growth. Integration of IoT and smart technologies in machinery allows real-time monitoring and predictive maintenance. Overall, these trends are accelerating modernization and automation across the global woodworking industry.

CIFM

Today, China's furniture industry is constantly innovating in terms of R&D and production. From new materials, production machinery to high technology, these developments have led to great progress in furniture production and manufacturing. The extensive use of polymer materials, represented by PE, PVC and ABS, has facilitated the rapid iteration of the furniture industry and brought about profound changes in the furniture industry. Upgrading from traditional woodworking machinery to a new generation of CNC and precision woodworking machinery is fundamental to driving changes in furniture design. Relying on the technological and professional nature of production machinery, designers can turn drawings into a kind of reality and into the consumer's home. The further popularisation of flexible production and manufacturing, the use of 3D design solutions on the design side, intelligent supply chain integration services and big data user profiling on the channel side are optimising and transforming furniture production, distribution and sales processes, and bringing new experiences to consumers.

CIFF Evolution

1998

CIFF was well established and held twice a year, one in March and the other in September.

2004

The fairground moved to the Canton Fair Complex in Pazhou from Liuhua.

2005

The March show of CIFF started to be held in two phases, the first phase on 18th-21st for home furniture and the second phase on 28th-31st for office & commercial furniture.

2008

The March show was enlarged and adopted both Area A and Area B of Canton Fair Complex for each phase.

2012

The March show was further enlarged and adopted Area A, B and C of Canton Fair Complex for each phase.

2015

The September show moved to Hongqiao in Shanghai from Pazhou in Guangzhou.

2016

CIFF Guangzhou was further enlarged by adopting Poly World Trade Center Expo for home furniture.

2018

The strategic cooperation agreement with Red Star was signed and CIFF started a closer cooperation with Chinese distribution mall.

2019

CIFF Guangzhou was further enlarged by adopting the Nanfung Complex for office show.

2020-2022

Repositioning itself as "Design Trend, Global Trade, Full Supply Chain", CIFF Guangzhou continued to be held successfully without interruption despite COVID-19 pandemic.

2023

CIFF Guangzhou is further enlarged by adopting the newly-built Canton Fair Complex as Area D, welcoming exhibitors and visitors from around the world to gather in Guangzhou again. The number of visitors reached 380,763 hitting a record high.

2024

CIFF Guangzhou is further enlarged with a total exhibition scale of 850,000 m² and over 4,700 exhibitors.

2025

CIFF Guangzhou witnessed a "triple growth"--- over 4,900 exhibitors, a new record-high, participated and showcased their latest innovations to 363,825 professional visitors from 187 countries and regions. Notably, the number of overseas visitors reached 56,794, marking a 10.91% year-on-year increase and setting a new benchmark for CIFF's international presence.

CIFM/interzum guangzhou

CIFM/interzum guangzhou is jointly organized by China Foreign Trade Centre Group, Ltd. and Koelnmesse GmbH. The cooperation of the two parties empowers the exhibition with a wealth of experience in organizing exhibitions in China, customer resources and a strong network of international cooperation. As Asia's leading event in the woodworking machinery, material, furniture production and interior design industry, CIFM / interzum guangzhou provides the definitive one-stop platform for industrial suppliers worldwide to showcase a wide range of products and technologies, and meet professional buyers from all over the world. It is the preferred professional trade show for decision makers of industry from domestic and international.

Why CIFM/interzum guangzhou

01 Comprehensive Categories

Explore a wide range of products, from home and outdoor furniture to office and commercial spaces, including production equipment and materials.

02 All-Channel Coverage

Access to trade and design channels, domestic and international sales, and both traditional and emerging markets.

03 One-Stop Sourcing

Discover the latest and best designs and products across all furniture sectors at various price points.

04 Supplier Network

Meet over 4,700+ suppliers in one location, expanding your supplier library.

05 Year-Round Support

Benefit from CIFF's online and offline business-matching activities throughout the year.

06 Global Connections

Enjoy perpetual matching with exhibitors and visitors worldwide, tailored to your specific needs.

China International Furniture Machinery & Furniture Raw Materials Fair (Guangzhou) 2025/interzum guangzhou Successfully Held

CIFM/interzum guangzhou 2025 was successfully held from March 28th-31st. Under the theme "Engine of New Productivity", the fair established a full-chain ecosystem centered around three core themes: Machinery, Hardware and Furniture Materials, showcasing cutting-edge technologies and advanced innovations from the upstream industry. It facilitated the evolution of industrial aesthetics and green transformation while driving the industrial chain toward high-end development. As Asia's largest and most comprehensive industrial benchmark platform, the fair continues to build a world-class showcase dedicated to supply chain solutions, reinforcing its position as the No.1 Global Furniture Manufacturing Fair.

Comments by Exhibitors

How Was CIFM /interzum guangzhou

CEO, HOMAG China

Guan Jingtao

For over 20 years, HOMAG China has partnered with CIFF Guangzhou, our most pivotal industry platform. This year at the exhibition, numerous international guests showed a keen interest in China's manufacturing equipment, especially our equipment, which left a deep impression on me. The fair delivered outstanding results—we secured and implemented Southwest China's first Industry 4.0 production line. CIFF's premium platform fosters invaluable client connections and collaborations. We hope that CIFF Guangzhou will continue to grow, become even more spectacular, and achieve greater success.

President, LINAK China

Alexandre
LICINA

Marking our 20th year in China and 15th consecutive participation at CIFF, we've deepened our market commitment. Among countless industry events, CIFF Guangzhou stands out as one of China's finest exhibition platforms, significantly enhancing LINAK's brand recognition and influence.

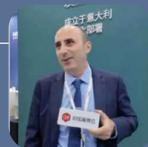

APAC Director of REHAU Interior Solutions

Jochen Luft

With over 30 years of operations in China, REHAU - the German polymer solutions specialist - has established itself as a trusted partner for diverse industries. We have maintained a long-standing partnership with CIFF Guangzhou, recognizing the exhibition as a premium platform for showcasing its innovations. Our booth design adopted a "train station" theme, symbolizing REHAU's remarkable 30-year journey from Germany to China, celebrating our enduring success story in the market. Notably, our newly launched products - the cube concrete surface material and rolling door cabinet systems - have garnered significant industry attention.

Technical Application Manager, Biesse China

Luigi Tarini

As Asia's premier furniture trade fair, CIFF Guangzhou is indispensable for Biesse. 1. Global reach: Attracts worldwide clients and generates significant on-site orders. 2. Tech showcase: Features innovations like 5-axis machining centers and smart edgbanding systems. 3. Trend insights: Direct customer interactions reveal evolving market demands.

Key Account Manager of CEFLA FINISHING EQUIPMENT

Wang Xixue

We've been exhibiting at CIFF Guangzhou almost every year, and each time we gain a lot. On one hand, it helps us connect with new clients and revisit existing ones, strengthening our customer base. On the other hand, we launch new products at every edition, which always attract great attention. CIFF Guangzhou is an excellent platform for us to showcase our brand and products, delivering tangible results and generating promising leads.

Sales Director, KDT MACHINERY

Peng Ling,

Since going public in 2016, KDT Machinery has been a regular exhibitor at CIFF Guangzhou. Through consistent participation in this major industry event, the company has successfully promoted its brand and penetrated the market, while also leveraging the platform to facilitate technological upgrades and ecosystem collaborations. For the company, in-depth industry interaction is a key path to breaking technical boundaries, seizing market opportunities, and building competitive advantages. Looking ahead, as the furniture sector embraces intelligence and globalization, CIFF will remain a driving force helping us consolidate our leading position and steer industry innovation.

GM of TUTTI HARDWARE

Liu Xin

TUTTI has participated in CIFF Guangzhou for many consecutive years. Every March, we arrive as scheduled. As an international exhibition, CIFF Guangzhou attracts a wide range of clients from both home and abroad, seeking brands and products. Our clientele includes both international and domestic clients. Among the domestic clients, we serve both traditional customized home companies and our nationwide distribution partners. Our products received high praise, and many visitors also offered valuable suggestions on this year's brand promotion and display. The feedback has been overwhelmingly positive. This is not only a recognition of our past efforts, but also a motivation for us to keep innovating and progressing in the future.

Sales Manager, Nanxing Machinery

Duan Yuhong

Nanxing has participated in CIFF Guangzhou for decades, witnessing the rapid growth and many transformations in the industry. The fair has become an important stage for us to showcase our strength and product innovation. This year's edition once again drew high visitor turnout and delivered impressive results. Many clients were impressed by our products and services and signed contracts with us on the spot. CIFF Guangzhou provides full exposure for Chinese manufacturing, enabling collective efforts to demonstrate the strength and creativity of China's home industry and driving the sector toward higher quality, smart technology, and sustainability.

Intelligent Machinery

Leading Next-Gen Production

Targeting manufacturing intelligent platform, Machinery Sector showcases furniture manufacturing technologies for digital transformation and intelligent transformation solutions. With a focus on promoting smart manufacturing and industry transformation, the sector gathers comprehensive collection of top brands among the world to build a grand event for the whole industry together.

Machinery

Hall 9.1-11.1 Exhibiting global premier woodworking machinery brands.

Hall 12.1 Showcasing innovative brands and cutting-edge technologies in home furnishing production.

Hall 13.1 Unveiling new products, technologies, and trends in the upholstered furniture manufacturing sector.

Infinite Hardware Links

Offering One-stop Supply Chain

With "functional innovation" as its engine, Furniture Hardware Sector emphasizes the display of global brands, new products and new technologies. Well-known brands in the industry are gathered with high-end furniture material solutions and intelligent home solutions, together building a top trading platform for furniture supply chain and better empowering the industry's future growth.

Hardware

Hall 12.2-13.2

Whole house furniture hardware procurement and supply chain transaction platform.

Hall 9.3-11.3

Showcasing the most innovative smart technology concepts, exploring complete hardware solutions.

Star Avenue

Creating a "Inovation Avenue" through the 3 halls from 9.3 to 11.3 for the hardware industry, featuring more premium brands and new products.

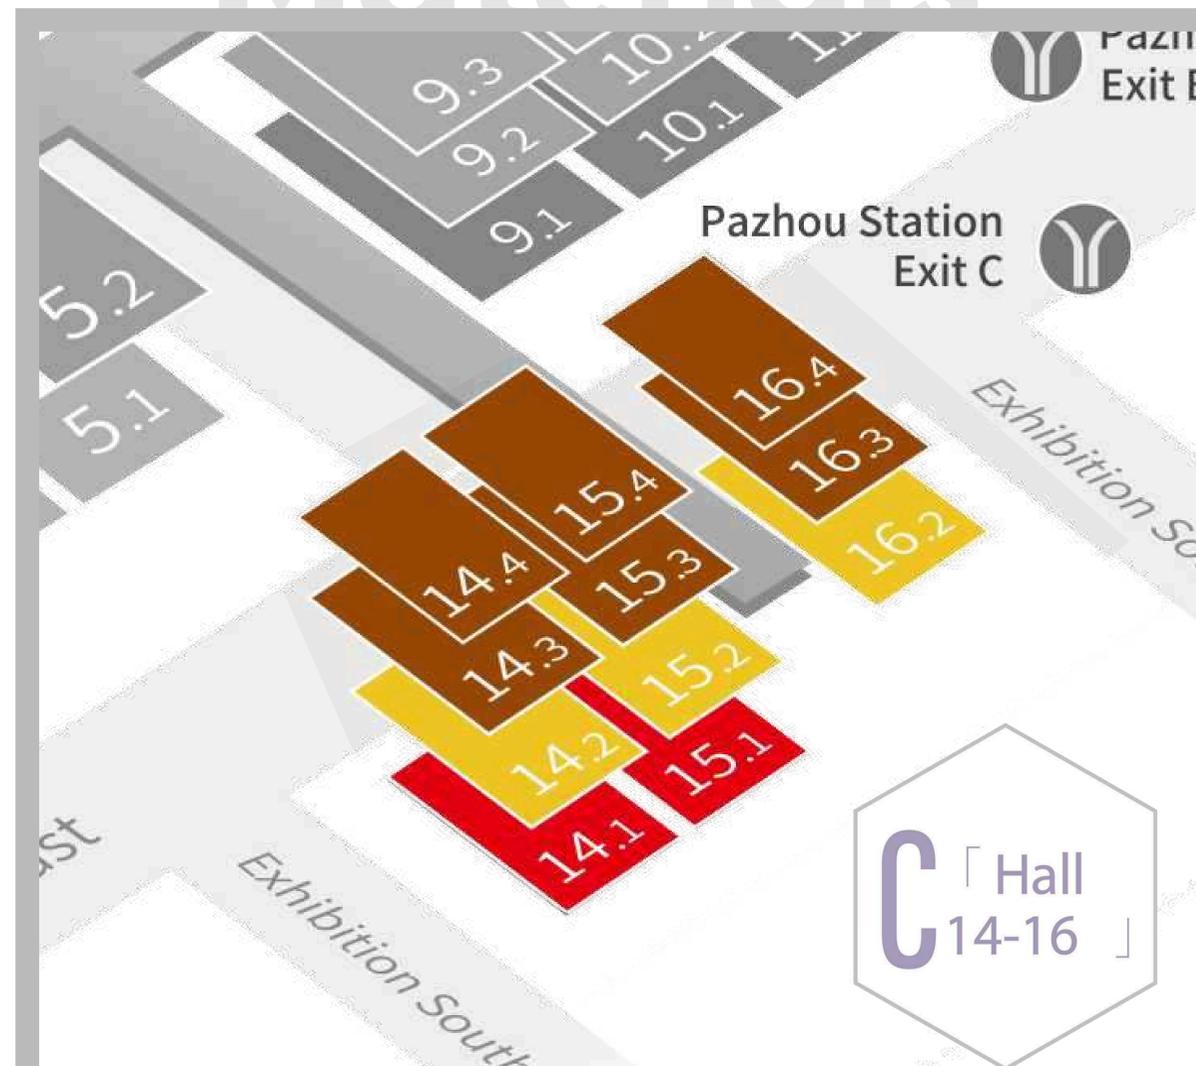

Furniture Materials

Empowering Innovation from the Source

Aiming at top sourcing platform for home design, Furniture Materials Sector showcases upholstery furniture materials, plates and substrates. Renowned brands from home and abroad bring their original design, innovative material applications and functional upgrades, providing comprehensive upstream solutions for furnishing industry and jointly leading the future trend of home furnishing.

Materials

- Hall 14.1-15.1** Gathering premium overseas brands.
- Hall 14.2-16.2** Premium upholstery materials for enhancing comfort living.
- Hall 14.3-14.4** One-stop production solutions for custom furniture.
- Hall 16.3** Original Design Hall and CMF Trends Lab International Materials Gallery, exploring cutting-edge materials and design, inspiring home aesthetics.

CMF Trends LAB International Material Gallery

CMF Trends LAB International Material Gallery is designed with an open layout, gathering thirteen international material brands from eight countries, connecting the two sides of the main aisle, and presenting four trends to the audience.

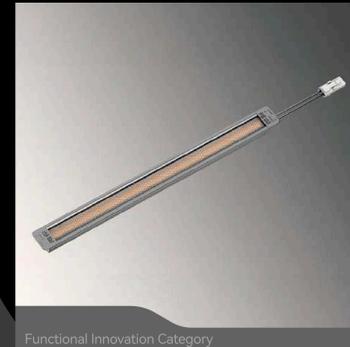

CD Awards

CIFF Guangzhou creates a high-end design program in China's home furnishing industry - "CD Awards". With the concept of "seeking good designs", the project unites numerous participating enterprises, advocates for high-quality production standards, explores truly outstanding and pioneering designs, and sets new benchmarks for the industry.

"CD Awards" covers all links of the entire industrial chain, including home furniture, home decor & home textiles, outdoor & leisure, office furniture, commercial furniture, hotel furniture, and furniture materials. It brings together authoritative figures such as international judges, professional judges, academic judges and media judges to form a professional jury, injecting authority and professionalism. The project selects and discovers outstanding new talents in Chinese furnishing design, promotes the development of excellent design brands, and contributes to the continuous development of the home furnishing industry.

GUANGDONG JINLI XIANGXING PRECISION METAL MANUFACTURING CO.,LTD.

Xiangxing is an international hardware enterprise integrating design, development, production and sales, specialising in furniture hinges, drawer slides, gas spring etc. It has established a set of basic hardware system for "wooden door, aluminum frame door, glass door, American cabinet door and special angle door panel". Since 1987, it has developed from a small workshop to a modern production line with a production area of 35000 square meters.

Xiangxing is the leader of quality manufacturing and technological innovation in the hardware industry. A series of technological innovations, such as two way soft-closing hinge, American soft-closing hinge, cylinder buffer switch and three-way quick mounting base, have refreshed the industry's understanding of hinge and created a new technical trend. At present, there are more than 100 inventions and technology patents of hardware products.

GUANGDONG TOPCENT DEVELOPMENT CO., LTD.

TOPCENT is an international company that has been deeply involved in the furniture hardware industry for more than 30 years.

Concentrating on four product matrix of Universal Hardware System, Storage Hardware System, Functional Hardware System and Decorative Hardware System, Topcent product system covers 16 major product modules, including slides, hinges, handles, connectors, wardrobe storage system, smart kitchen storage system, etc. suitable for all types of furniture. Backed by four supporting manufacturing bases in Foshan, Gaoyao, Jieyang and Lufeng, with Guangzhou Logistics center as the main center, and with enterprise service center as the link, Topcent forms a healthy and efficient home hardware ecosystem. Topcent, based in the Greater Bay Area, seizes the opportunities of the Belt and Road Initiative, to create a home hardware ecosystem with global partners.

We have passed the certification of "National High-tech Enterprise" and ISO 9001:2015 quality management certification system, and have obtained more than 20+ invention patents, utility model patents and other honors. Since 1986, we have adhered to the mission of "letting more people benefit from our business" and provided our buyers and customers with professional, complete furniture hardware solutions and efficient one-stop service experience!

GUANGDONG HOLD MACHINERY CO.,LTD.

HOLD was established in 2014, focusing on the research and development of a full range of furniture machinery and equipment. We provide factory planning and automation production line solutions for furniture enterprises. HOLD also provide high-quality, efficient, and stable products along with excellent services. So far, we have served furniture and wooden door enterprises in over 70 countries and regions worldwide, and earned widespread recognition from our customers.

Guangzhou Lianrou Machinery And Equipment Co., Ltd.

Lianrou Machinery, which started with mold manufacturing, was founded in 1978. As the very first Chinese manufacturer of pocket spring machines, Lianrou Machinery opened the production of upholstered furniture machines in China. The main business of Lianrou Machinery is the production of pocket spring machines and its relevant automatic packing machines. They are pocket spring machines, pocket spring assembly machines, mattress packing production lines, SMARTLINE which is our intelligent production collaboration system, and overall industry solutions. Relying on the decades of mechanical R&D and manufacturing experience of the company's founder, Lianrou Machinery has been devoting itself to the R&D and manufacturing of high-quality intelligent CNC machines. As the leading enterprise in the domestic intelligent manufacturing equipment industry of upholstered furniture, the machine products are mainly applied in the automatic intelligent production of upholstered furniture which many machine products have reached the world leading level. It is unique in the industry that customized pocket spring mattress meets the pressure curve of human sleeping position. In recent years, the machine products of Lianrou Machinery has ranked first in the domestic and oversea market.

As a national grade high-tech enterprise and "Little Giant" enterprise, Lianrou Machinery has successfully built up a professional R&D and management team after decades of ingenious manufacturing and innovative development. Lianrou Machinery has continuously invested and accumulated experience in technology research and development, process design etc. There is a R&D team of 65 full-time personnel, including 2 with doctor's degree, 2 with master's degree and 9 professional engineers. Team members with Bachelor degree or above accounts for 70% of the R&D team and the R&D team personnel accounts for 29% of the total number. Team members covers mechanical and electrical engineering, computer, automation, electronic information engineering and other relative fields.

The intelligent pocket spring machine produced by Lianrou Machinery is the most efficient and stable pocket spring machine in the world. The machine products have obtained international authorized patents from the United States, Germany, Poland, Turkey and so on.

We are trying to build "Lianrou Machinery" as a national brand and strive to become a representative brand of "Guangzhou intelligent manufacturing". Lianrou Machinery always adheres to the principle of "leading the industry with advanced technology, winning the trust with the best quality, and rewarding to customers with high-quality service". Lianrou Machinery takes "innovation, quality, service and integrity" as the core values and strives to become a leader in the world furniture industry and the health&sleep ecological industry.

Jilin Forest Industry Dew River Technology Group Co., Ltd

Jilin Forest Industry Dew River Technology Group Co., Ltd. (referred to as "Dew River Group") is a wholly-owned company established in September 2018 by Jilin Forest Industry Wood-Based Panel Group to revitalize the wood-based panel industry, implement integrated development, share resources, and innovate business formats. The company oversees five marketing subsidiaries in Beijing, Shanghai, Guangzhou, Xi'an, and Shandong, a Northeast business division, as well as Jilin Forest Industry Dew River Trading Co., Ltd. and Jilin Forest Industry Dew River Decorative Materials Co., Ltd., with its headquarters in Changchun, Jilin Province.

The Dew River brand operated by Dew River Group originates from 1958, with a brand history spanning more than half a century. In 1984, under the state's Seventh Five-Year Plan, the Dew River particleboard production plant was officially established and put into operation. Today, in addition to fully managing the unified sales of Dew River-branded particleboard, medium-density fiberboard, eco-board, and other panel products as well as the operations of Dew River Home, the group strives to fully leverage its integration capabilities. Through advantages in branding, channels, talent, and resources in industry-university-research collaboration, it actively attracts social capital, partners with strategic allies to share resources, innovates development models, and promotes new business formats. Dew River Group is committed to advancing the integrated development of multiple industries, including wood-based panel processing, e-commerce, housing rental, natural foods, and mineral water.

The DewRiver-branded wood-based panel products are environmentally friendly and reliable in quality. They have been awarded titles such as China Famous Brand, China Well-Known Trademark, China Eco-Origin Certified Product, and certifications including ISO9001, ISO14001, and ISO45001. The company has been recognized as an outstanding panel manufacturer, a national brand of Chinese wood-based panels, a national brand, a trusted consumer brand, and an excellent Chinese particleboard brand. Its products are also featured in CCTV's domestic brand program and are a preferred brand for well-known furniture manufacturers.
